Statement of the Seat of Vitéz about membership of chivalric organizations not recognized by the ICOC, and the use of unrecognized noble titles

The Seat of Vitéz draws the attention of current and future members of the Order of Vitéz to the fact that membership in chivalric organizations not recognized by sovereign states and the International Committee of Orders of Chivalry (ICOC) entails exclusion of members of the Order of Vitéz and a reason for exclusion from the admission of applicants.

Furthermore, the indication of noble titles that are not generally recognized is prohibited in the documents created during the operation of the Order of Vitéz, and the use of these titles is not permitted at events organized by the Order of Vitéz or during the representation of the Order in general.

More information on this matter can be found in the document entitled "Statement about the policy of the Order of Vitéz concerning nobility, nobiliary titles and membership in chivalric organisations" available on the website of our Order, which can be viewed at:
