Communication from the Captain General regarding the recent events within the Order

This day we honoured the victims of communism.

Many displaced, chased away for the communists to grab, eat and devour their goods.

Obviously the devils work.

Within communism the exercised absence of God brought chaotic rule, raging hate, distrust, poverty and the loss of morale and honour.

The consequences still recognizable within our slowly recovering society.
Smearing hate speech, lack of orientation being two typical examples.

We must stretch our hands to God to find His love, grace and healing.
